## WORK EXPERIENCE

**Full Stack Developer** | Elevance Health – Herndon, Virginia | Contract - Remote

Jun 2024 – Present

- Optimized existing platform by implementing React.Suspense, code splitting, and lazy loading, resulting in **40% smaller bundle size and 25% faster page loads**.
- Designed MongoDB schema optimization and indexing strategies, **reducing average query time from 500ms to 100ms** and **supporting 3x increase in concurrent users**.
- Developed reusable React hooks and context providers for common functionalities (authentication, data fetching, form handling), **reducing codebase complexity by 35%** and **improving development velocity by 40%**.

**Systems Engineer (Application Developer)** | Tata Consultancy Services – Hyderabad, India | Full-Time - Remote Nov 2020 – July 2022

- Developed scalable web applications using Java Spring Boot and React, improving performance and delivering a **seamless user experience to over 50,000 users**.
- Optimized microservices with Spring modules, enhancing REST API performance, leading to a **20% reduction in response times**.
- Built reusable React components, reducing front-end development time by 30% and increasing code maintainability across multiple projects.
- Improved existing CI/CD pipelines with Jenkins, reducing deployment time and accelerating time-to-market for new features.
- Conducted unit and integration testing, leading to a 30% reduction in post-deployment bugs and improving release quality.
- Authored and maintained technical documentation for APIs, increasing team collaboration and reducing onboarding time.

**Application Developer Intern** | Tata Consultancy Services – Hyderabad, India | Internship - Remote

Oct 2019 – Mar 2020

- Optimized UI components using React.js and Redux, **improving load times by 25%** and **enhancing the overall user experience**.
- Developed mobile-first, responsive layouts with CSS3, SASS, and Material-UI, ensuring consistent user experiences across multiple devices and screen sizes.
- Integrated **RESTful APIs** for real-time data updates, improving app responsiveness and reducing load times by **20%**.
- Collaborated with cross-functional teams to deliver **key features on time**, contributing to the successful launch of **several product iterations**.

## EDUCATION

**Master of Computer Science** | Illinois Institute of Technology – Chicago, IL

Aug 2022 - May 2024

**Bachelor of Technology** | Gokaraju Rangaraju Institute of Engineering and Technology – India

Aug 2016 - Sep 2020

## PERSONAL PROJECTS

**Effort Lytic - Task Manager** | (Tech: **React, Express.js, Node.js, PostgreSQL, RESTful APIs, JWT, Vercel, Figma**)

- Designed and developed a full-stack task management web application, implementing robust user authentication and authorization mechanisms, including password reset and registration features. Designed and integrated CRUD operations to enable dynamic, real-time user interactions and seamless task management.

**E-Commerce Platform with Angular & Spring Boot** | (Tech: **Angular, Spring Boot, Stripe API, Firebase**)

- Built an e-commerce platform replicating popular players featuring product catalog management, shopping cart functionality, and payment integration using Angular and Spring Boot.

**Notify - Real-Time Collaborative Application** | (Tech: **React, Express.js, PostgreSQL, Firebase**)

- Engineered a collaborative note-taking application that supports real-time editing and user synchronization with Firebase as the backend. Integrated user authentication and authorization features, ensuring secure access control and privacy for all users.

## SKILLS

**Programming Languages:** TypeScript, JavaScript (ES6+), Java, C, Python

**Front End Engineering:** React, Next.js, Angular, HTML, CSS (SASS/SCSS), Flutter, Bootstrap

**Backend Engineering:** PostgreSQL, Redis, Firebase, MongoDB, GraphQL, Flask, Express.js, Spring MVC, Kafka, REST APIs

**Deployment & CI/CD:** Git, Docker, Jenkins, Amazon Web Services, S3, EC2, Lambda, Beanstalk, Redshift

**Build & Testing:** Node.js, Webpack, Postman, Junit, Jest, Cypress, React Testing Library
